Fire Extinguisher Safety

Job & Site Specific Training

Every employee and employer must ensure that they have the training and skills to properly perform their job. The guidelines discussed in this program may not have covered specific hazards that may be present at your workplace.

Employers, employees and independent contactors must work together to identify job and site specific hazards. Training associated to those hazards must be understood. We must work together to make every workplace safe.

Print Your Certificate & Wallet Card

Print certificate and wallet using colour printer and high quality paper. Cut out wallet card as noted below. Order plastic wallet cards from

List Site & Job Specific Training Then Sign

Complete the site and job specific training section on the back of the wallet card. Keep your wallet card with you as proof of training.

Keep Records on File of All Training

Keep a copy of this training of file. Employers are also required to keep records of all training provided to employees.
